

Hello Eveyone!

I'm writing to you again because things have happened during this time and I'm excited to share it with you.

We have gone to Matinhos, city that I mentioned last time, where carnaval (2nd-5th March) was quite popular and strong.

I was finally able to get some sun as I found out once I got to the campus in Curitiba that this part of Brazil just loses to London in the aspect of humidity, so I may or may not come back whiter than I already am.

Once we got to the sunny Matinhos, we did drama in the beach for the kids during the day, as well as offering free hugs and free water in the street. The evenings were the busiest, where we would go back to the school we were staying, which was a 30-40 minute walk and then go back again to the beach where carnaval was starting, we did some circus presentations, drama and more evangelism individually and prayers. Once again we would go back and then come back after midnight to help with the results of that party, which was helping people that were passed out or too drunk to go home alone. It was very tiring but an amazing experience.

After those days I came back and the lessons and school work started again. We are having many lessons about law and grace, identity, dependence on God, etc.

Today (18 of March) we were announced our outreach location of 2 months. I'll be going to Amazonas (along Amazonas river) to work with the communities and tribes, staying in a boat and going through different villages to create and execute projects with mainly children and women as usually the men is out hunting or fishing.

In this location there is no cell phone signal and the team will work with transmission radios. We will receive support from the local churches however I won't be able to send any news from there.

Please pray for this new time that will come, especially for the team that will be going (3 women, 3 men and 2 leaders). That we may get along well and work as a team to be a difference in those places.

I don't have the amount that will be needed for this time yet, but they are presuming around 3,000-4,000 reais (which is around 600-800 pounds), if you can donate and support me in this great God adventurous you can do through the church, talk to the church office team.

As I receive more detailed information I'll send to you before going to Amazonas. I really count on your support in prayer.

Hope everything is well.

God bless you all! Samara

Matinhos
